EXPERIENCE

Cereblis

Machine Learning Intern (Full-time)

Bengaluru, KA

Aug. 2025 – Sep. 2025

- Analyzed and preprocessed medical datasets using **Pandas** and **NumPy**, and performed EDA with visualizations using **Matplotlib** and **Seaborn**.
- Trained and evaluated classification models using **Scikit-learn** to predict diagnostic outcomes from patient medical records.
- Deployed models using **Pickle** and developed a basic web interface with **HTML**, **CSS**, and **JavaScript** for predictions.

UNIVERSITY PROJECTS

MABLYTIC (Personalized Ad Engine) | *Python (FastAPI), HTML/CSS, JavaScript, SQLAlchemy, SQLite*

- Developed a full-stack ad personalization platform using FastAPI and JavaScript to deliver targeted advertisements based on user preferences and behavior.
- Built RESTful APIs and user tracking for real-time ad delivery and behavioral data collection based on user interactions.
- Engineered a SQLite-based analytics pipeline to generate datasets for user segmentation, behavioral analysis, and future ML-driven recommendations.

SMART STAIRCASE (IoT Digital Twin) | *Arduino, ESP32, JavaScript, Three.js, WebSocket, Firebase*

- Developed an IoT smart staircase using Arduino, LDR sensors, WS2812B LEDs, speaker, and servo-controlled door.
- Built a Three.js 3D digital twin with full-duplex WebSockets for real-time hardware monitoring and control.
- Implemented ESP32 for cloud connectivity with Firebase and PostgreSQL for telemetry and event logging, with Render as backend.

IP SUBNET OPTIMIZATION TOOL | *Python, Flask, Tkinter*

- Engineered an automated subnetting engine to dynamically calculate optimal CIDR notations, subnet masks, and network addresses based on host requirements.

SKILLS

Programming Languages: Python, JavaScript (Basic), Java (Basic), HTML/CSS

Frameworks & Technologies: FastAPI, Flask, REST APIs, WebSockets, SQLAlchemy

Libraries: pandas, NumPy, Matplotlib, scikit-learn (Basic)

Developer Tools: Git, VS Code

Platforms: Linux, Windows

EDUCATION

R V College of Engineering

Master of Computer Application (MCA)

Bengaluru, KA

Nov. 2025 – Present

Cumulative GPA: 8.89/10.0

Relevant Coursework: Computer Networks;

Sindhi College

Bachelor of Computer Application (BCA)

Bengaluru, KA

Sep. 2022 – Aug. 2025

Cumulative GPA: 8.15/10.0

COURSES & CERTIFICATIONS

- Java for Beginners Dec. 2025
- Demystifying Networking (NPTEL, IIT Bombay) Aug. 2024

EXTRACURRICULAR ACTIVITIES

Volunteer - BROSEPH FOUNDATION

Bengaluru, KA (Jun. 2025 – Oct. 2025)

- Led volunteer outreach, coordinated donation drives, and delivered educational support to underprivileged children

Student Coordinator - GenAI & Agentic Intelligence Workshop

Bengaluru, KA (Apr. 2026)

- Managed session operations and logistics for a faculty development workshop at RVCE
